

Table of Contents

List of Figures	xii
List of Tables	xiii
Acknowledgements	xiv
1 Introduction	1
2 Problem Description	3
2.1 Problem Background	3
2.2 Definitions and Assumption	5
2.2.1 Notions	7
3 Regular network	9
3.1 With Front-end Scenario	9
3.1.1 Data Injection on The Corner Processor	10
3.1.2 Data Injection On The Boundary Processor	28
3.1.3 Data Injection On The Inner Grid Processor	32
3.1.4 Sensitivity Analysis With Front-end Processors	36
3.1.5 Multi-source Even Data Fraction	40

3.1.6	Multi-source Different Data Fraction	48
3.2	Without Front-end Scenario	48
3.2.1	Data Injection on The Corner Processor	50
3.2.2	Data Injection on The Boundary Processor	62
3.2.3	Data Injection on The Inner Grid Processor	65
3.2.4	Sensitivity Analysis Without Front-end Processors . . .	67
3.2.5	Multi-source Even Data Fraction	69
3.2.6	Multi-source Different Data Fraction	69
4	Toroidal Rectangle Network	70
4.1	Toroidal Rectangle Network Notions	70
4.2	With Front-end Scenario	72
4.2.1	Data Injection On The Grid Processor	72
4.2.2	Sensitivity Analysis of Toroidal Rectangle Network . .	75
4.2.3	Multi-source Even Data Injection	75
4.2.4	Multi-source Different Data Injection	77
4.3	Without Front-end Scenario	78
4.3.1	Data Injection On The Grid Processor	78
4.3.2	Sensitivity Analysis of Toroidal Rectangle Network . .	80
4.3.3	Multi-source Even Data Injection	81
4.3.4	Multi-source Different Data Injection	82
4.4	Comparison Result	83
4.4.1	Comparison Result Between Regular Mesh and Toroidal With Same Processors Number	83

4.4.2	Comparison Result With Corner Processor and Inner Grid Processor	84
4.4.3	Comparison Result Between Front-end Processor and Without Front-end Processor	86
4.5	Store and Froward Switching	92
5	Hypercube Network	93
5.1	With Front-end Scenario	93
5.1.1	Data Injection On The Grid Processor	93
5.1.2	Sensitivity Analysis With Front-end Processors	94
5.1.3	Multi-source Even Data Fraction	95
5.1.4	Multi-source Different Data Fraction	96
5.2	Without Front-end Scenario	97
5.2.1	Data Injection On The Grid Processor	97
5.2.2	Sensitivity Analysis Without Front-end Processors	98
5.2.3	Multi-source Even Data Fraction	99
5.2.4	Multi-source Different Data Fraction	100
6	General Network	101
6.1	General Case With Front-end Processors	101
6.2	General Case Without Front-end Processors	103
7	Conclusion and Future work	104
7.1	Conclusion	104
7.2	Future Work	105

Bibliography	106
